

RIDE ALONG WITH YOUR FLEET VIRTUALLY ANYWHERE, ANY TIME

Smart, Simple, Easy to Use

Smart Fleet is a New Jersey family owned business that has been providing excellent customer service for over 9 years in 42 states and Canada. With Smart Fleet, you get the best of both worlds: the personal one-on-one experience of a small family business that is backed by large software companies providing quality and reliable products.

REAL TIME GPS TRACKING

Web based accessible from desktop, laptop or smart phone. Know where your assets are wherever you are using GPS fleet management.

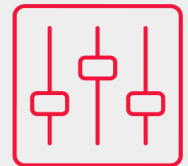

GPS FLEET TRACKING REPORTS

Reports can be pulled anytime or automatically set up to receive on a daily, weekly or monthly basis.

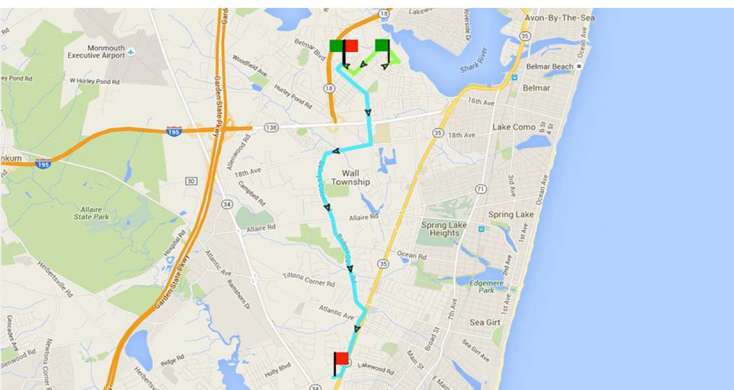

GPS FLEET TRACKING ALERTS

Alerts are pre-determined thresholds set by you, and are instantaneously sent via text and or e-mail.

DISPATCHING TO SMARTPHONES & TABLETS

Send messages and jobs from your dashboard to your techs smartphone or tablet.

Global Positioning System (GPS) technology can transform the way you manage your business by providing real-time visibility into what's happening in the field. GPS has the potential to help improve the safety of your fleets, improve the efficiency of your drivers, provide your clients superior customer service and ultimately improve your bottom line.

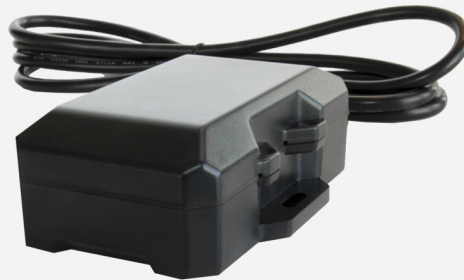

"This technology has helped us lower fuel consumption by 40% by reducing unauthorized personal use, improved routing and reduced idling time" - Doug Lanzo, President of Lanzo Plumbing and Heating, Hackensack NJ
